Profile

AI Agent Developer and Low-Code Automation Specialist with 5+ years' experience building production-ready AI agents, multi-agent systems and end-to-end automation for startups and SMBs. Expert in OpenAI API, LangChain and prompt engineering, with deep practical experience in n8n, Make, CRM and Supabase integrations to automate lead generation, email workflows and reporting. Rapid prototyper using Bubble, WeWeb, Webflow and Supabase; regularly leverages Claude Code, Cursor and GitHub Copilot to accelerate development and improve agent performance.

EXPERIENCE

Freelance AI Developer — AI Agents & Automation

Mar 2026 — Present

- Designing and building AI agents and multi-agent systems using OpenAI API and LangChain
- Developing conversational AI workflows, chatbots, and LLM-powered assistants for business clients
- Integrating AI agents with CRMs, databases (Supabase), and third-party APIs via webhooks
- Building end-to-end email automation and lead generation pipelines using Make and n8n
- Prompt engineering and optimization of AI agent performance and response quality
- Documenting AI systems, automation processes, and workflow architecture
- Stack: OpenAI API
- LangChain
- Supabase
- n8n
- Make
- Webhooks
- Claude Code
- Cursor
